Laser Vent PU

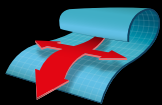

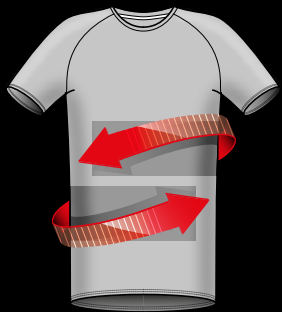

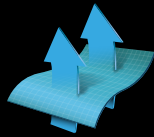

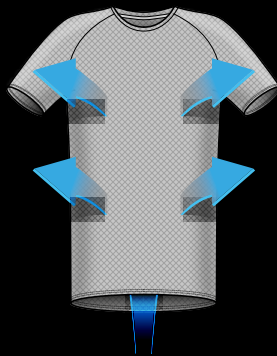

Playlab™ is not a technical guarantee.
It is an on-court implementation of belief which it shares
with Tecnifibre: to help the player play better

BODY MAPPING MULTIFIBRES

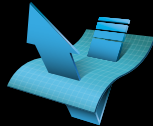

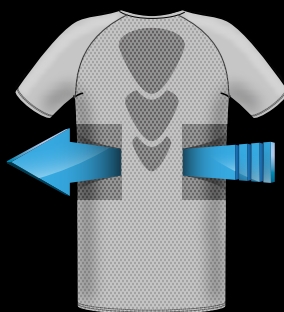

To help the body maintain its temperature at 37°C,
the products were developed with materials adapted to different weather conditions.

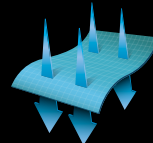

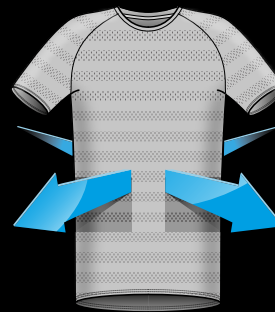

FEEL FIBER
Stretch cotton
bringing maximum
comfort

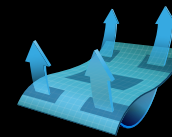

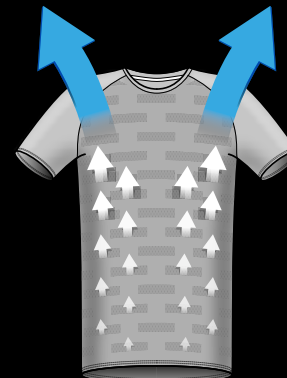

DRY FIBER
Microfibre polyester
to help the evaporation
of perspiration

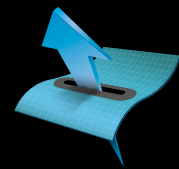

AIR FIBER
Insertion of mesh to
stimulate the circulation of
air to optimise breathability

VENT FIBER
Microfibre mesh with Hi
Cool® treatment for
maximum ventilation

VENT STRIPES
Mesh bands placed 360°
for optimum ventilation

LASER VENT PU
Polyurethane cut by laser and
placed on the principal heat
zones. Maximum aeration
whilst keeping the elasticity
of the polo
